

CONFIGURATIONS

DIMENSIONS MINIMALES DE LA TRÉMIE À L'ÉTAGE SUPÉRIEUR

Si la trémie existe: en fonction de la hauteur entre les étages (H), sélectionnez parmi les configurations possibles de l'escalier celle compatible avec la trémie à l'étage supérieur existant selon le schéma ci-dessous.

Si la trémie est encore à réaliser: en fonction de la hauteur entre les étages (H), crée la trémie à l'étage supérieur compatible avec la configuration de l'escalier choisi (rectiligne, un tour, deux tours) selon le schéma ci-dessous.

HAUTEUR ENTRE LES ÉTAGES (H)	DIMENSIONS DE LA TRÉMIE À L'ÉTAGE SUPÉRIEUR (épaisseur du plancher 30 cm)	
Min. 240 cm* - Max. 260	La trémie à l'étage supérieur doit avoir au moins les dimensions de l'escalier.	
Min. 260 cm - Max. 285	La trémie à l'étage supérieur doit avoir au moins les dimensions de l'escalier moins 1 marche en bas.	
Min. 285 cm - Max. 305	La trémie à l'étage supérieur doit avoir au moins les dimensions de l'escalier moins 2 marches en bas.	
Min. 305 cm - Max. 330	La trémie à l'étage supérieur doit avoir au moins les dimensions de l'escalier moins 3 marches en bas.	
Min. 330 cm - Max. 355	La trémie à l'étage supérieur doit avoir au moins les dimensions de l'escalier moins 4 marches en bas.	
Plus que 355 cm	La trémie à l'étage supérieur doit avoir au moins les dimensions de l'escalier moins 5 marches en bas.	

* Moins de 240 cm: la trémie à l'étage supérieur doit avoir au moins les dimensions de l'escalier plus 2 marches au début de l'escalier (en bas).

LARGEUR TRÉMIE ETAGE SUPERIEUR: largeur escalier + 5 cm

CONFIGURATIONS POSSIBLES DE L'ESCALIER

Grâce aux instructions suivantes, il est possible de déterminer le sens de montée, d'entrée et de sortie dans l'escalier en fonction des largeurs disponibles et du nombre de marches.

La mesure indique le reculement à l'étage inférieur de l'escalier.

LÉGENDE:

-  Marche d'arrivée à l'étage supérieur
-  Autre marches
